

NOTICE

Date : 28th March 2023
To : All Owners & Tenants
From : The Management Office
Subject : **Renovation Guideline**

Dear Residents,

Please take note of the following :

1. Please ensure the water outlet is accessible for maintenance. Residents are advised to clean the water outlet filtration at least weekly once.
2. Covering/sealing off the outlet will cause water to clog and backflow to your unit. This may damage the kitchen cabinet and also other furniture in your unit.
3. Please be reminded covering/sealing off the outlet will also void any future defect claims. This too will be considered a violation of the renovation guidelines and management has the right to forfeit your renovation deposit.

Thank you

The Residensi Rimbung (Canopy Hills) Management Office
